

'Create...Daffodil Windmill'

You will need:

- **Funky foam**
- **Tissue paper**
- **Paper fasteners**
- **PVA glue**
- **Hole Punch**
- **Lollysticks**

Instructions:

1. Cut out a 15cm square from funky foam and punch holes in each corner.
2. Cut a line in beside each hole diagonally towards the centre of the square stopping about 2cm from centre.
3. Fold in each corner to the centre so all 4 holed corners meet.
4. Cut a small circle of tissue paper for the centre of the flower, pierce through centre of it with paper fastener. Push this through all the corner holes which are now in the centre of the flower. Open the paper fastener at the back.
5. Glue a lollystick to the back of the paper fastener.
