

'Create...House of Horror Heads'

You will need:

- **Polyballs 30mm**
- **Animal Masks**
- **Red Food Colouring**
- **PVA Glue**
- **Acrylic Paint**
- **Masking Tape**
- **A3 Card**

Instructions:

1. On the A3 sheet of card draw a crest shape to fill page, and cut out. Attach mask to cardboard with masking tape.
2. Create an access panel on the back by cutting into the card behind mask to create a flap. This can be taped over when finished.
3. Paint the entire thing with acrylic paint + leave to dry.
4. Meanwhile mix a few drops of red food colouring with a little PVA glue.
5. Use a paint brush to thickly apply this around the eye sockets. Using the access panel, insert the polyballs into eye sockets from behind. More PVA glue / red food dye can be added for extra 'fake blood'.
