

'Create...Ice Cream Sundaes'

You will need:

- **Large + Small Bottle**
- **Scissors**
- **Poly ball 30mm**
- **Wadding/Stuffing**
- **Copydex Glue**
- **Craft Knife**
- **Giotto Pearl Paint**
- **Pipe cleaners**

Instructions:

1. Mark carefully then cut the bottom off the small bottle. Also cut and keep the shoulder of the large bottle, also remove the spout from it. Be careful to cut as straight as possible. Start with a craft knife, but do most of the cutting with the scissors.
2. Turn the little bottle upside down and glue it in the cut top of the large bottle shoulder. While the glue sets make sure it is standing vertically.
3. To make ice cream, lay out lengths of wadding + paint stripe down each length, leave to dry, then put inside sundae 'glass'.
4. For cherry, paint poly ball red + push in short length of pipe cleaner.
