Quick Idea Cards

'Create...Pipe cleaner Spider'

You will need:

- **Black Pipecleaners**
- **Orange and Black Beads**
- **Google Eyes**

Instructions:

1. Gather eight pipe cleaners in a bunch. Bend the bunch in half and then twist the section near the fold several times to shape a small body.
2. Separate the pipe cleaner ends to make the spider's legs.
3. Slide a couple of beads onto each leg and push them close to the body. Bend each leg an inch from the body and slide a couple more beads up to the joint. Bend the legs again to make a second set of joints about 1 ½ inches from first and slide on the final pair of beads.
4. Stick the eyes onto the head.
