

'Create...Recycled Rain Catcher'

You will need:

- **Wooden Spoon**
- **Plastic 1L Bottle**
- **Permanent Marker**
- **Ruler**
- **Google Eyes**
- **Threads/Wool etc**

Instructions:

1. Cut off top of bottle and insert back into body of bottle upside down.
2. Place rocks inside base to steady.
3. Use a wooden spoon to make a rain measurement stick. Decorate with google eyes, wool etc to create a fun face.
4. Use a ruler and permanent marker to mark measurements on handle of wooden spoon.
5. To take rain measurement insert spoon handle into top of bottle.
