

'Create...Weather Clock'

You will need:

- **Paper Plates large & small**
- **Tissue Paper**
- **Funky foam letters**
- **Lollysticks**
- **Funky foam sheet**
- **Paper fasteners**

Instructions:

1. Decorate the small paper plates with the tissue and funky foam letters. Make each plate a different weather type.
2. Decorate the large plate. Cut out a large arrow from the sheet of funky foam. Push the paper fastener through the bottom of the arrow and then through the centre of the large plate.
3. Attach all the small plates to the large plate using lollysticks and double sided tape.
4. Look outside the window then point the arrow to whatever the weather is! Let's hope it's Sunshine!
